YOU

BLUE MOOSE
DANCE COMPANY 

Our creative dance workshops have been adapted to suit the needs of your school and we have put together some great ideas to keep your schools dancing through these difficult times. Helping you use pupil premium funds to produce a lasting memory of your dance and creative experiences for both your staff through training, and your pupils through creative workshops.

Creative dance has so many benefits, especially for young people, that are not just physical. It can help to develop many skills including team work and social skills and allows young people to explore the national curriculum in a very different way. This is essential to improve confidence and independence. Creative dance also gives young people a chance to develop their problem solving skills as well as express themselves in a way that they may not have experienced before.

Blue Moose can help and support your school to achieve elements of your Ofsted Framework. supporting with 'Intent Implementation and Impact' and 'Personal development'. We do this by providing support to teachers delivering dance where it may not be their main area of expertise. We have developed bespoke schemes of work, working across the entire curriculum that allows pupils to gain knowledge and skills and achieve highly. Blue Moose also allows pupils to use both the mind and body to explore the curriculum, allowing those that may not achieve well in school find a new way to learn and develop, outside of a typical classroom setting.

Blue Moose are dedicated to work with whole classes and schools and finding ways to allow each pupil to develop their character, working towards resilience, confidence and independence to support the physical and mental health of each pupil.

CLASSROOM CHOREOGRAPHY

We understand that spaces may be used in very different ways at the moment, so we have developed some 'Classroom Choreography' workshops to keep your students moving and grooving within their bubbles!

The sessions allow for safe and exciting dance sessions to be held within the classroom using the space in the most creative ways.

Our 1 hour 'Classroom Choreography' sessions allow pupils to energise their bodies and break up the school day with physical activity. This helps to regain focus and concentration. As pupils may be spending a lot of time in one room, the session is designed so pupils will view the same environment in a different way by bringing movement and creativity into the space, allowing them to learn in an alternative way.

DANCING OUTSIDE

"Blue Moose are fantastic and always provide high level dance material. They are great at communicating with the children and meeting all their needs. They make dance interesting and exciting and have the ability to engage all children."

Georgina Jackson

Take your dance workshop outside! If you are unable to use your indoor spaces, we are here to take your dance outside in our 'Outdoor Dancing' sessions. All of our Blue Moose Dance Artists have experience delivering creative outdoor dance sessions and each workshop is created to suit you and your space.

Our 'Outdoor Dancing' sessions are delivered as a 2 hour session working with 1 group exploring a dance style or theme of your choice, culminating in a short performance piece! The sessions are designed to allow children to connect to nature and the outdoors, develop ownership and celebrate their school environment and express themselves in a fun and creative way whilst learning and developing key skills.

BOOGIE MOVIE

We can also work with your pupils to create an exciting Dance film with our 'Boogie Movie' project, which can be shared with other pupils as well as staff and parents, creating a lasting legacy to celebrate and promote your school community!

Our 'Boogie Movie' workshops provides you with an inspiring and creative way of exploring dance and movement whilst animating your school environment and providing pupils with a voice to shout loudly about their wonderful school spaces!

An experienced Blue Moose Artist will work with your school for a full day, in-person working with one or several 'bubbles' in a socially distanced manner, or working remotely with several groups to direct creative tasks and film-making. The filmed content will then be edited into a short film for you to share far and wide!

PACKAGES AVAILABLE:

BOOGIE MOVIE
£500

DETAILED BREAKDOWN

*Whole day session
plus film editing*

**CLASSROOM
CHOREOGRAPHY**
£60

DETAILED BREAKDOWN

1 hour session
